**IMHOTEP VIRTUAL MEDICAL SCHOOL**

**THE ULTIMATE MEDICAL STUDENT COMPANION**

...IMPF believes that the root cause of minority underrepresentation in United States medical schools is academic disadvantage borne by lack of access to high-quality high school and college preparation. Consequently, IMPF mission is to become a leading organizational force for parity in medical education by helping minority students develop the skills that will enable them to compete on a more equal footing in the medical school admission process, and once in medical school, provide them with learning aids from the best medical education communities around the world...
